MEASURING IMPACT

\$1,000

Equipping Youth for Success

Provide kids with the equipment they need to get on the field and play. When you give \$1,000 you can provide 50 pairs of soccer cleats for kids waiting to join the game. Did you know kids who play sports are more likely to graduate high school and go to college?

\$5,000

Breaking Down Equipment Barriers

LPF removes the cost of sports equipment as a barrier so that more kids can play. As a sport that requires a lot of protection, the cost of hockey gear can add up fast. With a \$5,000 contribution, you can provide a hockey stick for 100 kids in need.

\$9,750

Keeping Kids Active

Giving sports kits to schools and youth programs allows kids to stay active in the summer wherever they are. With a \$9,750 contribution, you can provide 150 sports kits to under-resourced programs.
